About our company

- With professionalism, we support and advise you on the best solution for optimum results, taking into account environmental, safety and social issues.

Supporting our customers and partners towards responsible performance, combining social and environmental issues is our main objective. We therefore develop industrial lubricants and other specialty products with a reduced environmental impact, without compromising either their performance or the safety of users.

Why choose us

- Attention to Details
It's our attention to the small stuff, scheduling of timelines and keen project management that makes us stand out from the rest. We are creative, while keeping a close eye on the calendar and your budget.
- A Plan for Success
You want results. We have found that the best way to get them is with up front research – of your company, competitors, target market and customer psychographics. Only after we fully understand you and your customers, do we recommend a plan of attack.
- Creativity
We bring our diverse background of advertising, design, branding, public

Our Product Range

HOSES

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

HOSE FITTINGS

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

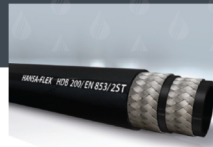

ADAPTER

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

FLANGES

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Hydraulic Hose

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

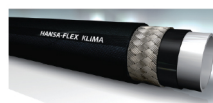

Industrial Hose

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Metal Hose

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Air Conditioning Hose

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Hose Protection

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Our best services

As a full-service provider, we supply our customers with everything they need from a single source: From standard hose assemblies and tubes to power units, hydraulic components or metal hoses. We support our customers through every phase of their projects: From the engineering and prototyping to project planning, installation and commissioning. Partners in original equipment Original equipment manufacturers already benefit throughout the design and engineering phase: From rapid completion of product samples and prototypes all the way through to volume

1

Lubricants

Lubricants Choosing the right lubricant for your vehicle is very important. We have a wide range of automotive lubricants for engine, gears, transmissions and other vital parts of heavy

2

Base oil

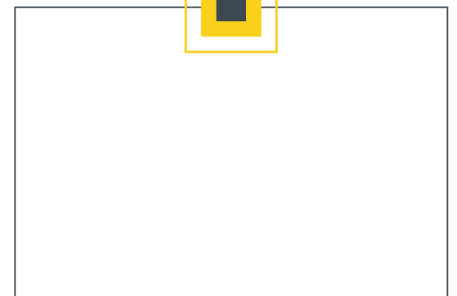

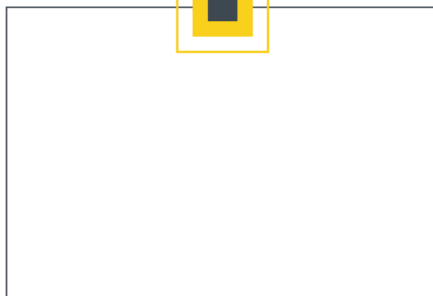

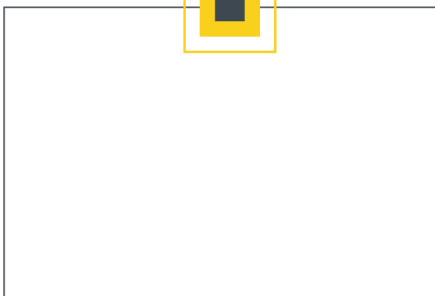

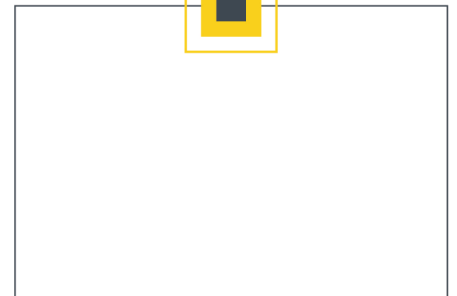

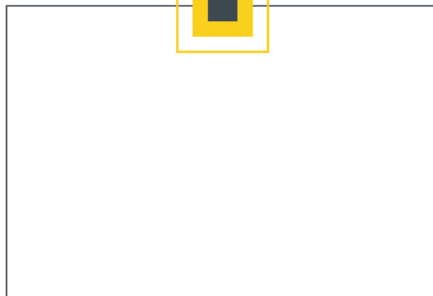

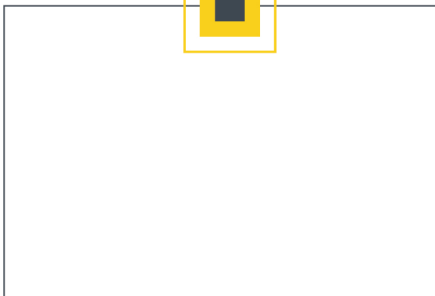

Quick Deal Co is a large independent trader of base oil products. We have effective logistical and storage capability working with our partner companies

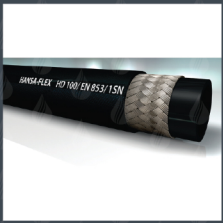

3

Tyres

Tyres The most important part of a car, are its tyres. Browse through our full line of high performance tyres for all vehicles

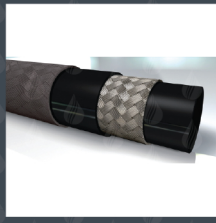

Other's services

Chemical hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Steam hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

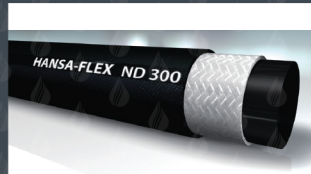

Abrasive media hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Food hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Air hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Oil and fuel hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

PTFE hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Water hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Gas hoses

Duis autem vel eum iriure dolor in hendrerit in vulputate velit .

Metal Hose types

Expansion joints

Coolant hose

Metal hoses

PTFE tubing

Wrapped hoses

Ultra Clean Machines

highly productive hose cleaning machine. The machine is best suited for high volume manufacturing of 2" hoses along with workshop capability for 3" high pressure hose and 3" industrial hose.

Engineering Technical Support

- *Our technical team are responsible to select the appropriate hoses according to your operating condition and your application
- *Our technical team can make hoses identification that enable our customers to have their own technical data base
- *Petromix technical team can make a troubleshooting for any hoses failure to avoid any kind of machine stoppage

Metal hose production

Stainless steel material

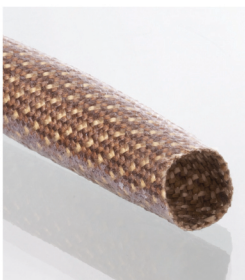

Leakage test

Welding type

Hose protection types

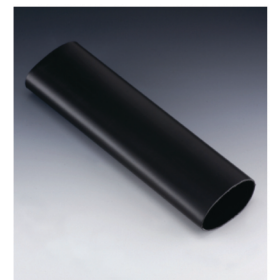

Heat Protection

Abrasion Protection

Kink Protection

Heat Shrink Tubing

Certifications and approvals

HANSA/FLEX

- All processes are quality tested and certified
- Quality management DIN **ISO 9001**
- Environmental management DIN **ISO 14001**
- Close cooperation with classification and certification bodies
- Contributions to BGR 237 and the international working group **ISO / T45**
- Cooperation partner in the IHA, International Hydraulics Academy

Hose Test Benches

p160

Hose lines that cannot withstand the high pressure for which they are designed can cause serious damage, resulting in high costs - often higher than the price of a test bench.

Why take a risk that can be easily avoided?

By testing the quality of your products, you opt for safety.

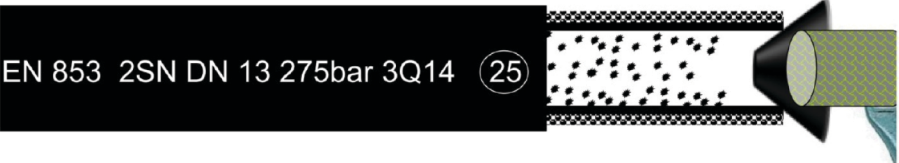

The P 160 workshop test bench allows for the efficient and safe final inspection and testing of hose lines. It is easy to operate and quickly become part of your routine procedures.

Hose Cleaning Machines

The mobile hose cleaning machine is perfectly suited for use in the service division.
